EXPERIENCE

Solar Secure Solutions | Fullstack Web Developer (Intern)

September 2023 - Present

- Proficient in HTML5, CSS3, and SCSS for crafting responsive web layouts with meticulous attention to detail, ensuring cross-device compatibility.
- Leveraging clean JavaScript and ReactJS skills for creating dynamic web elements that enhance user engagement and deliver a top-tier user experience.
- Skilled in Bootstrap for efficient website development and actively learning Node.js, Express.js, and MongoDB for comprehensive full-stack capabilities.

Etihad Airways (AISATS affiliated) | Customer Service Executive

June 2022 - November 2022

- Ranked #1 out of 21 colleagues and was remarked as the best fresher in the team.
- Single-handedly saved 4 hours for my team in one day, by creatively handling 2 groups of passengers, totaling up to 80, and receptively dealing with their requests. Thus, was highly remarked by Etihad Guest Relations Manager and my own Team leader.
- Frequently communicated with diverse clients, business-class passengers and royalties, in person for building rapport and friendly relationships, to achieve client satisfaction.

SKILLS

Programming Languages: HTML5, CSS3, SCSS, JavaScript,
Libraries/Frameworks: React.js, jQuery, Bootstrap,
Tools / Platforms: Figma

PROJECTS / OPEN-SOURCE

Portfolio Website | [Link](#)

- Designed and developed a unique personal portfolio website with a Google search result theme, showcasing a creative and innovative approach to presenting credentials.
- Achieved a high level of clarity and user experience by mimicking the familiarity of the theme of the most used search engine, garnering attention and positive feedback from online audiences
- All my projects and resume are available in a single place, and I update it regularly too!
- This project epitomizes my expertise in user experience (UX) design, my ability to blend creativity and technical skills, showcasing a unique and engaging concept that captures attention and leaves a lasting impression on visitors.
Employing CSS3, I added life to the app's interface through thoughtful styling and engaging animations, enhancing the overall cricket experience.

IPL Cricket React App | [Link](#)

- React proficiency: This project, my final certification endeavor with Edyoda, secured a perfect 200/200 score, showcasing my proficiency in React development.

- In place of traditional HTML, I predominantly used JSX syntax to seamlessly incorporate HTML-like elements into JavaScript, allowing for more expressive UI component descriptions.

Namaste Dev Club - Company Website | Link

- A website that stands as a testament to my web development skills, showcasing mastery in HTML5 and CSS3, alongside a commitment to user-centric design principles.
- It embodies our mission of making a positive impact on individuals' lives and fostering community growth, uniting frontend developers passionate about excellence.
- This project is a prime example of my proficiency in constructing an engaging and seamless user experience, with a focus on minimalistic aesthetics and a pristine, white-themed layout that enhances user interaction and engagement.

Batman Task Planner - To-do List

- Crafted a dynamic and visually engaging to-do list inspired by the Batman theme, showcasing a fusion of creativity and web development expertise.
- Demonstrated strong JavaScript skills to build an interactive and responsive task management system, allowing for real-time updates and seamless task tracking.
- Integrated dynamic features that enable users to add, edit, and delete tasks on the fly, mirroring Batman's agility and adaptability.
